

Supervision Requirements

Applicants must submit a Supervisor Agreement(s) as part of their candidate application.

An agreement must be completed by each supervisor and anytime a new supervisor is obtained.

Note: an approved supervisor must have an equivalent graduate degree as the candidate or higher.

Candidates may begin accruing supervision hours for the purpose of registration after the following conditions have been met: (a) they have formally been approved as candidates for registration, (b) they have completed all the requirements for their graduate degree, and (c) they have signed an agreement with an approved supervisor.

One year of supervised practice should be a minimum of 1500 hours of professional activity that is acceptable to the Registration and Membership Committee. Each year must include at least 100 hours of direct supervision. Up to 25% of direct supervision can be group supervision, where group supervision is defined as the time the candidate spends observing another supervisee's work being reviewed by a supervisor. Two hours of group supervision is counted as one hour of direct supervision. The time a candidate spends receiving feedback on their own work in a group supervision setting can be counted as individual supervision, meaning one hour of this type of supervision is considered one hour of direct supervision. In addition, up to 25% of individual supervision can be asynchronous, which occurs where the supervisor has produced detailed feedback on the candidate's work and this feedback is later reviewed by the candidate. Most typically this occurs when a supervisor has reviewed an assessment report and has provided detailed written feedback. Asynchronous supervision is only permitted when the supervisor's feedback is sufficiently detailed that the candidate needs to spend roughly an equivalent amount of time to review the feedback as was required to create it. The supervisor must also advise the candidate about the amount of time they spent generating their feedback. It is this time that the candidate can count as equivalent to direct supervision.

Change in supervisor: Candidates must send in a new supervisor agreement (as soon as possible or 30 days maximum) if their supervisor changes. Final appraisals from outgoing supervisors must be submitted to PAM.

Instructions

1. Supervisor(s) complete the fillable form on page two and forward to the candidate for their signature.
2. Candidates, please include the signed agreement with your application documents.
3. Supervisor(s) and applicant should each keep one copy for their records.

It is the responsibility of the Candidate and Supervisor to obtain any necessary approval for the supervisory agreement from any sponsoring institutions involved. The cost of supervision should be borne by the Employer. The Supervisor should not receive any remuneration, direct or indirect, from the Supervisee for the supervision.
