

Information on applying for the Examination for Professional Practice in Psychology (EPPP) for Registration as a Psychologist or Psychological Associate in Manitoba

This page will outline application information for individuals applying for registration in Manitoba. Details and a description of the examination are found at the EPPP link for the Association of State and Provincial Psychology Boards: <http://www.asppb.net/?page=CandHandbook> .

All applicants for registration as a Psychologist or Psychological Associate in Manitoba must write the *Examination for Professional Practice in Psychology (EPPP)* and obtain a passing score equivalent to 70%. Scores are now scaled so that a scaled score of 500 is equivalent to 70%.

You can apply to take the EPPP once you are registered with PAM as a Psychologist Candidate or Psychological Associate Candidate. You cannot take the EPPP until your membership application has been completed and approved by Council. If you are applying for registration in another jurisdiction, you should contact that jurisdiction for information on taking the EPPP.

Once you are ready to take the EPPP, you should notify the Registrar who will then register you with ASPPB to write the exam. Once you are registered for the EPPP you will receive an e-mail from ASPPB with further instructions on verifying your identity, submitting payment, and writing the exam. You will have 90 days to verify your identity and then an additional 90 days to write the exam. If you do not write within that window, you will have to re-register for the exam, and pay again. ASPPB is responsible for setting the fee for the exam and at this time, PAM does not charge anything for verifying your candidacy to write.

We are not able to recommend study materials. It is suggested that you consult with others who have taken the examination. You will be provided with a brief overview of the exam content when you apply however further details are available at the ASPPB website above.
